

The Conference on Earth Sciences and Sustainable Development (CESD), a part of a part of the 14th Scientific Conference at the University of Science, VNU-HCM (VNUHCM-US-Conf 2024), aims to bring together academic scientists, lecturers, and students to exchange and share their experiences and research results on all aspects of Earth Sciences and Sustainable Development, including earth sciences, ore mining technology, petrology and mineral resources, geophysics, oceanography, earth resources and the environment, geography, land management, and related disciplines. It also provides a premier interdisciplinary platform for researchers and educators to present and discuss the most recent innovations, trends, and concerns, as well as practical challenges encountered, and solutions adopted in the fields of Earth Sciences and Sustainable Development.

The CESD will also provide an excellent opportunity for young researchers to expose their work to international scrutiny, receive feedback from reviewers through double-blinded review process, benefit from the vast experience and expertise of senior scientists in this important field of research, and open up the scope for new research collaborations among the international community of participants and invited delegates.

This event will be organized by the Ho Chi Minh University of Sciences, VNU-HCM, in Ho Chi Minh City, Vietnam.
